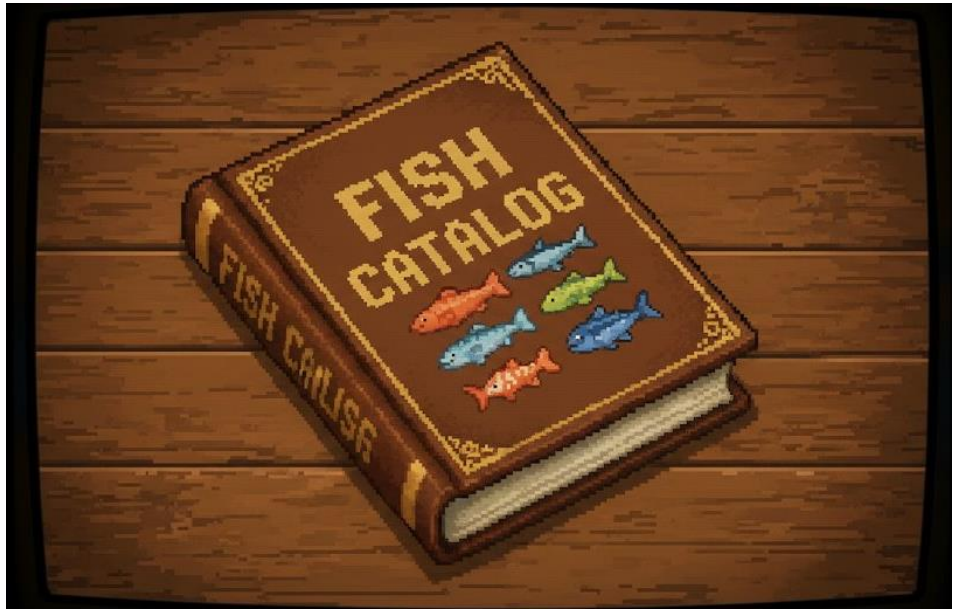
The Tale of *Just Fishing:* Meet Mrs. Beest

Nikoli visits the shop where he meets the shop owner, Mrs. Beest. Nikoli asks her about the job and is warned about the dangers of the sea. The previous fisherman was killed by the great white shark.

The Tale of *Just Fishing:* Fortune Seeker

Regardless, Nikoli is still interested and is hired on the spot. Mrs. Beest gives Nikoli a basic fishing a rod, boat access, a toolbox, and a fish catalog.

Determined to find his fortune, Nikoli sets sail.



Kade TL 3

The Tale of *Just Fishing:* Danger at Sea

Nikoli begins to catch fish, becoming obsessed with catching every single fish in the sea. Driven by madness, Nikoli seeks out the Great White Shark – Big Bruce.

As the fish become harder to catch, Nikoli begins to upgrade his tools. After several upgrades and a long battle with Big Bruce, Nikoli becomes the master of the sea.

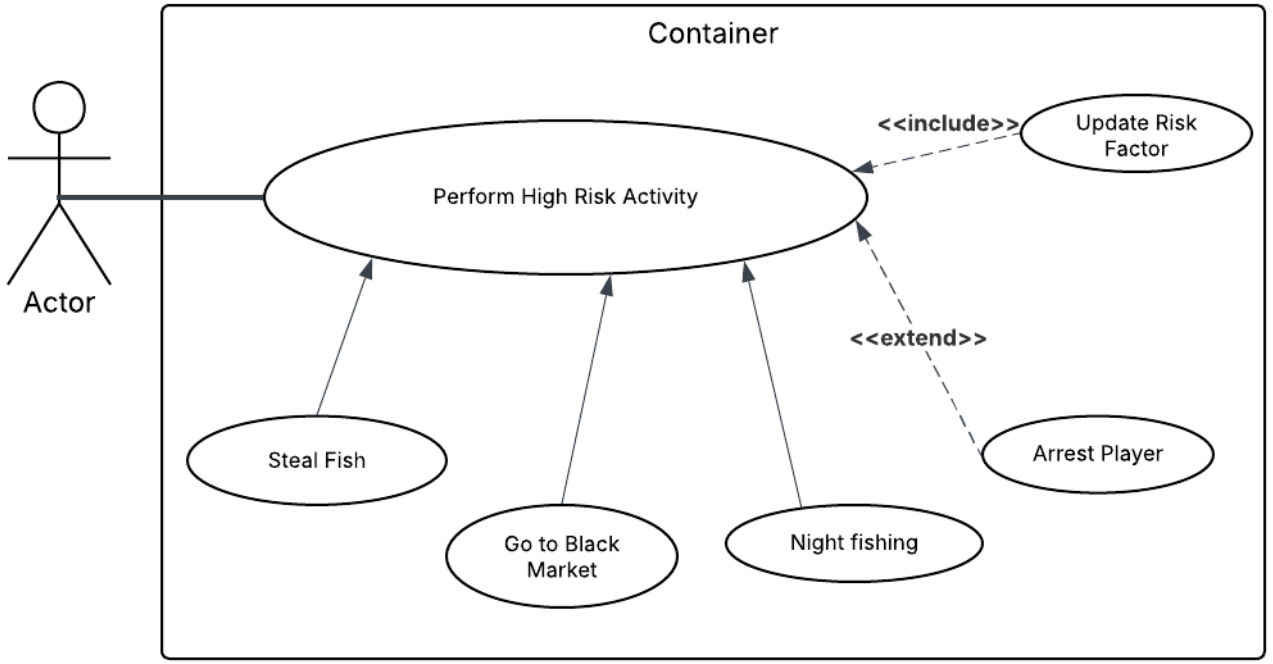
Individual Use Cases

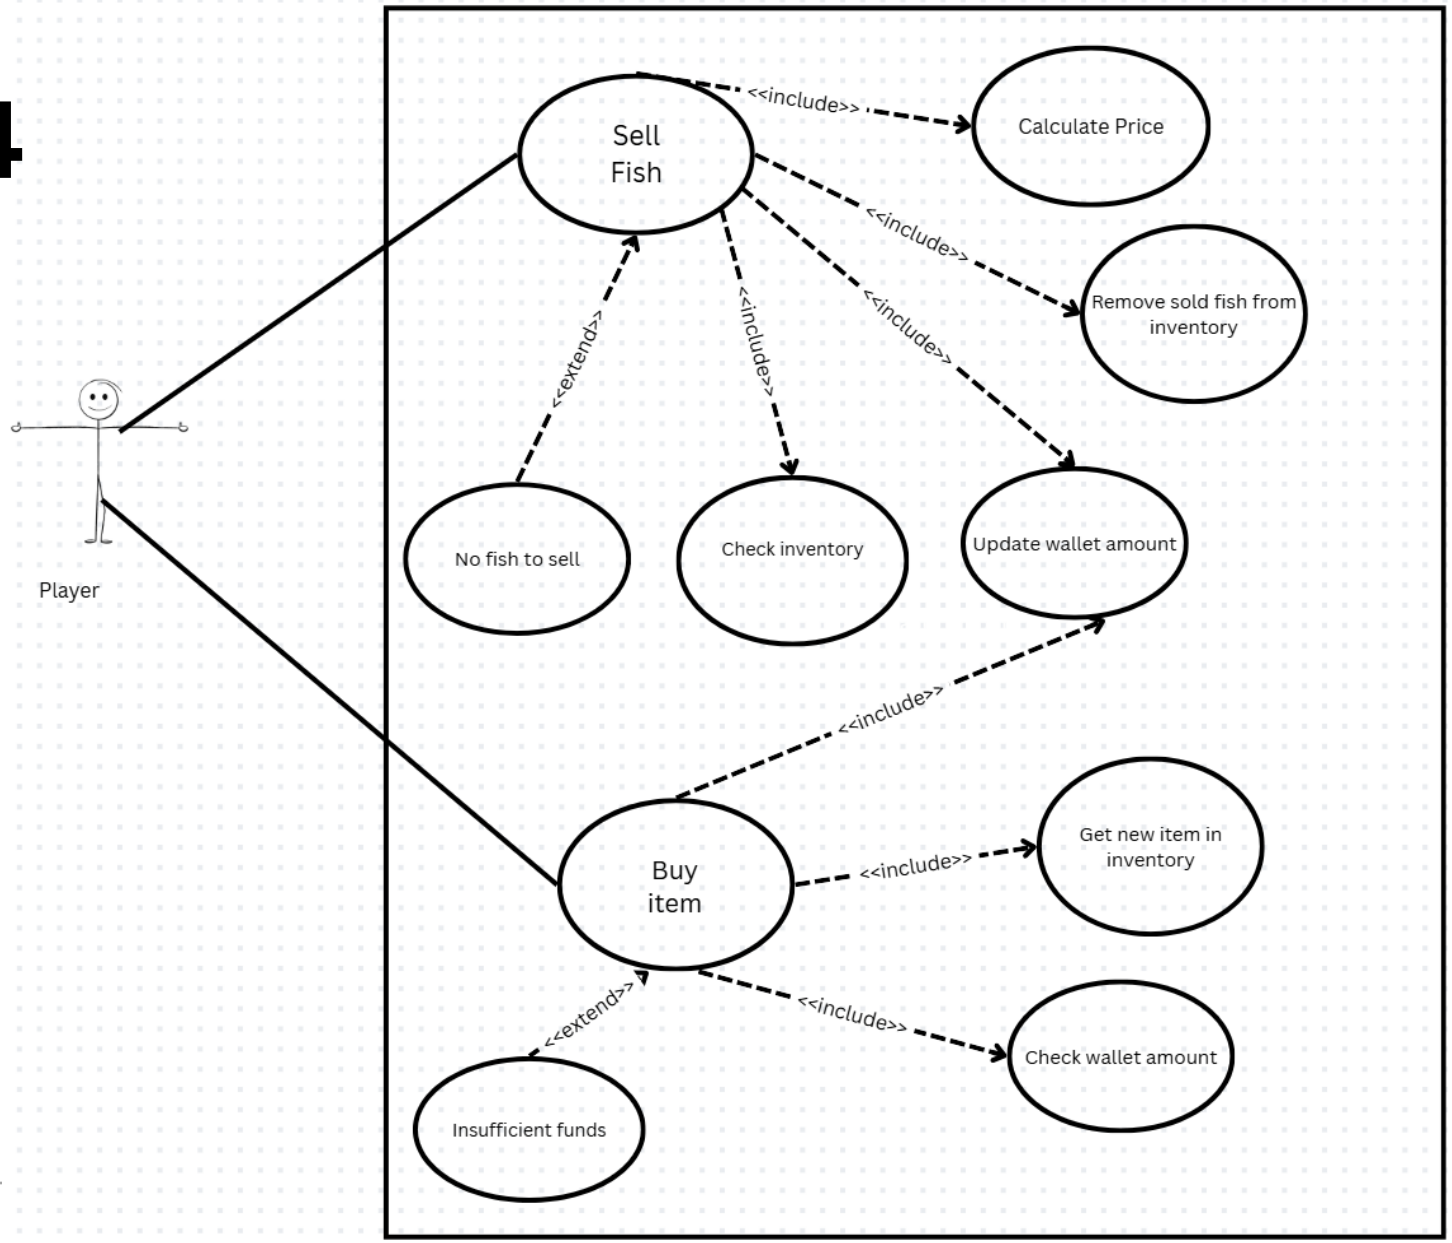
Kade TL 3: Stats/Storyline

- Purpose: Develops flow of game, stats add storyline impact
- Priority: High priority
- Complexity: Medium



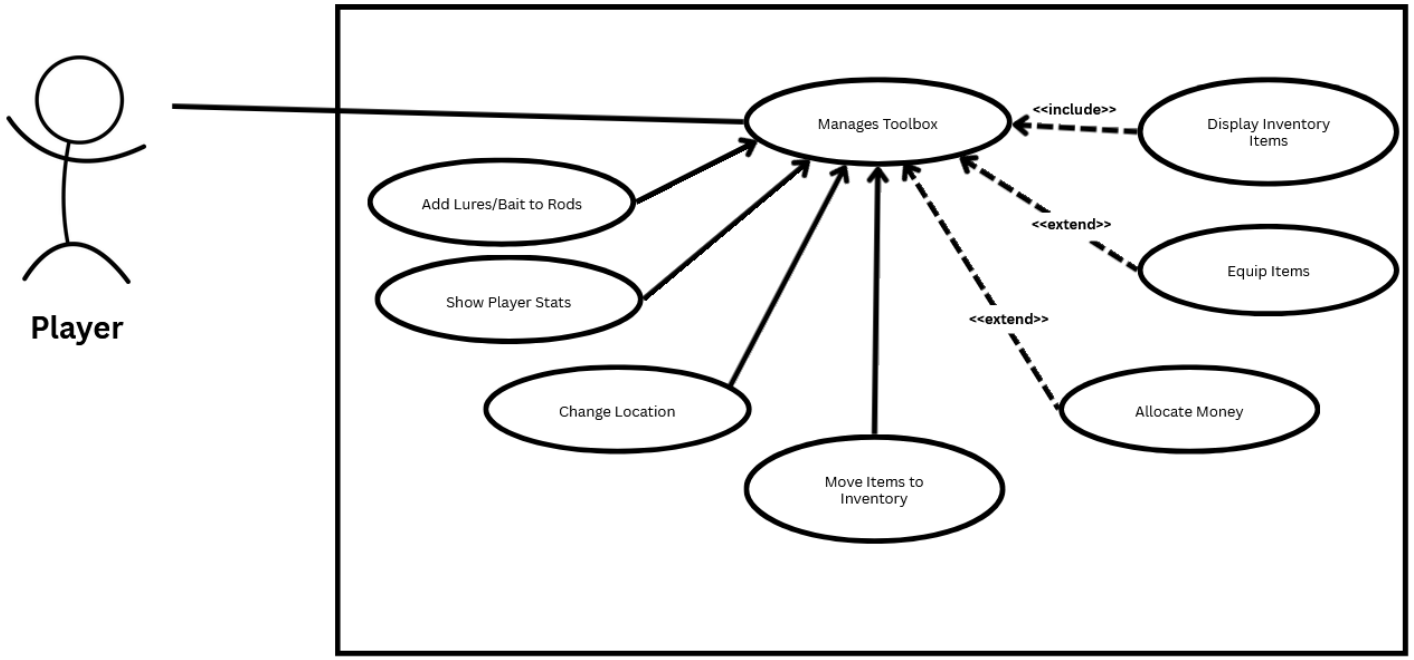
Danny: Shop TL 4

- **Purpose:** A way for the player to earn money to spend on other resources. Tool upgrades for easier fishing and fish bait for better fish
- **Priority:** High, only way to earn money in the game and money is essential for not dying
- **Complexity:** Medium



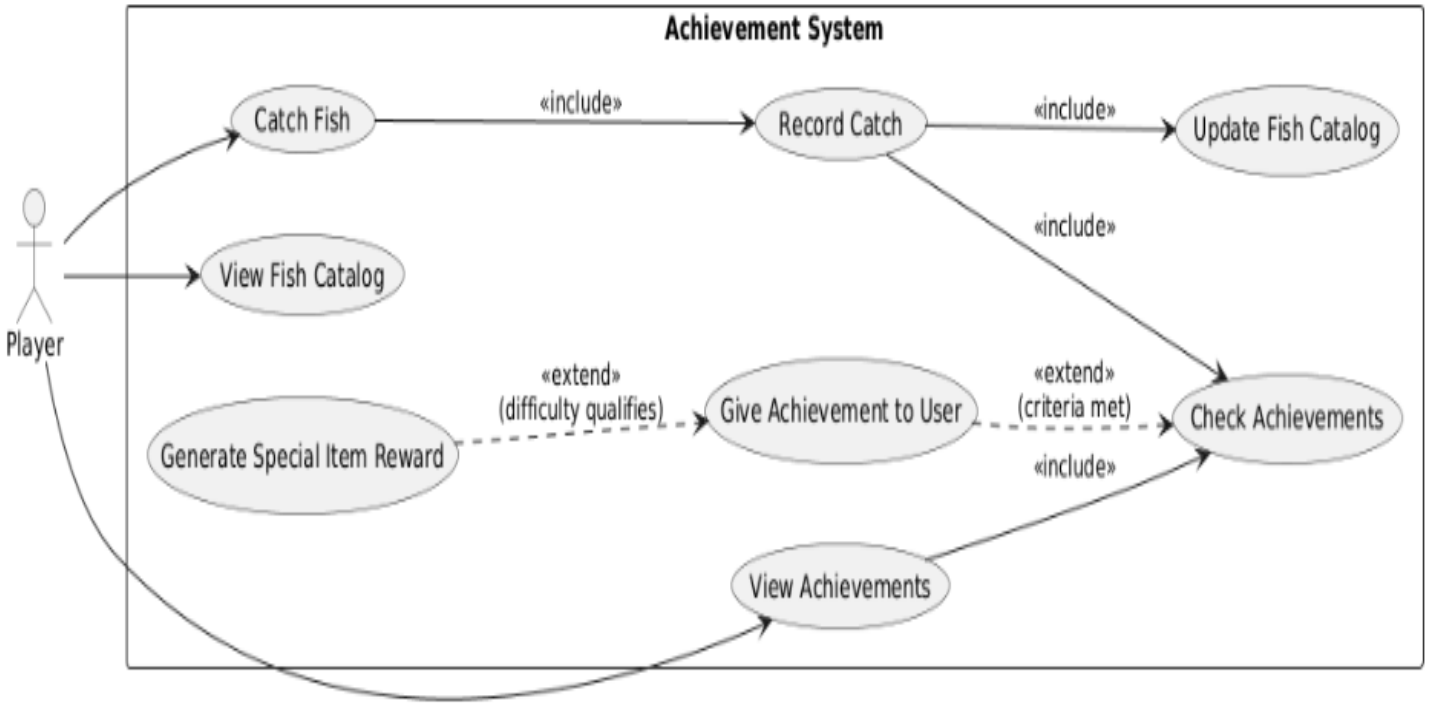
Isabella TL2: Toolbox

- **Purpose:** To enable the player to interact with many of the different systems and upgrade their tools.
- **Priority:** High
- **Complexity:** Medium



Fernando TL2+: Achievement System

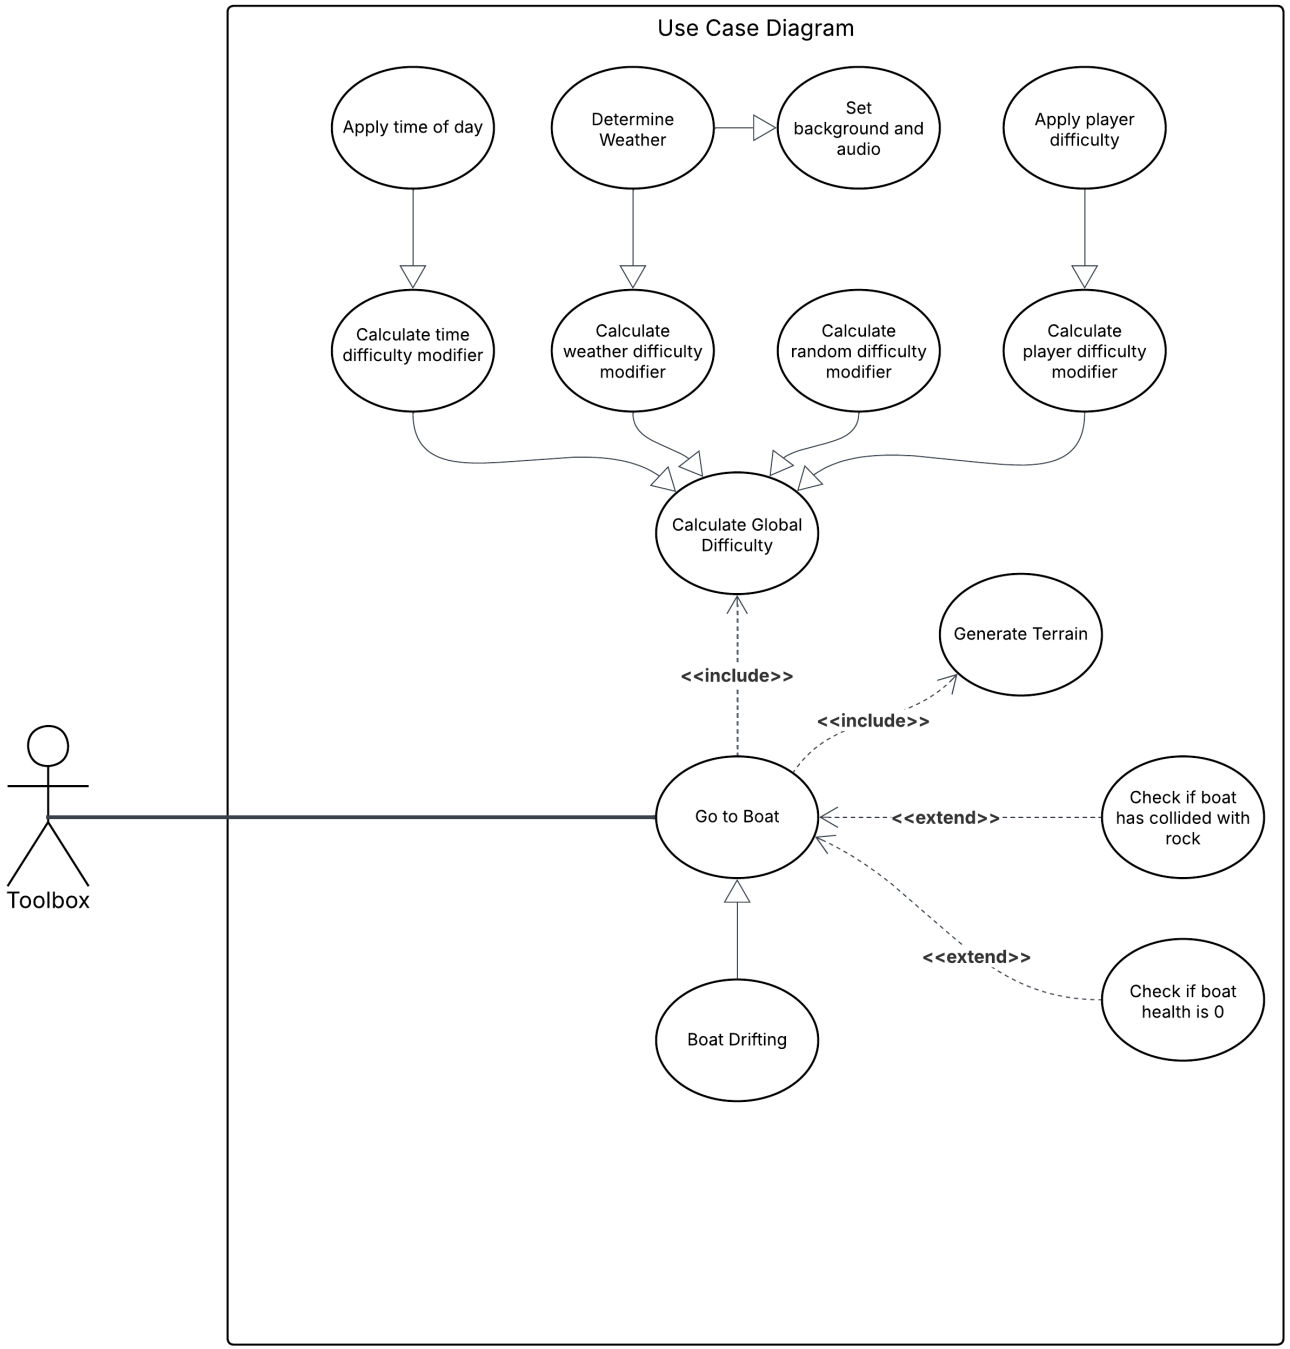
- Purpose: Indicates & Triggers Game Completion
- Priority: High
- Complexity: Medium



Johnny TL1: Boat and Ocean Terrain

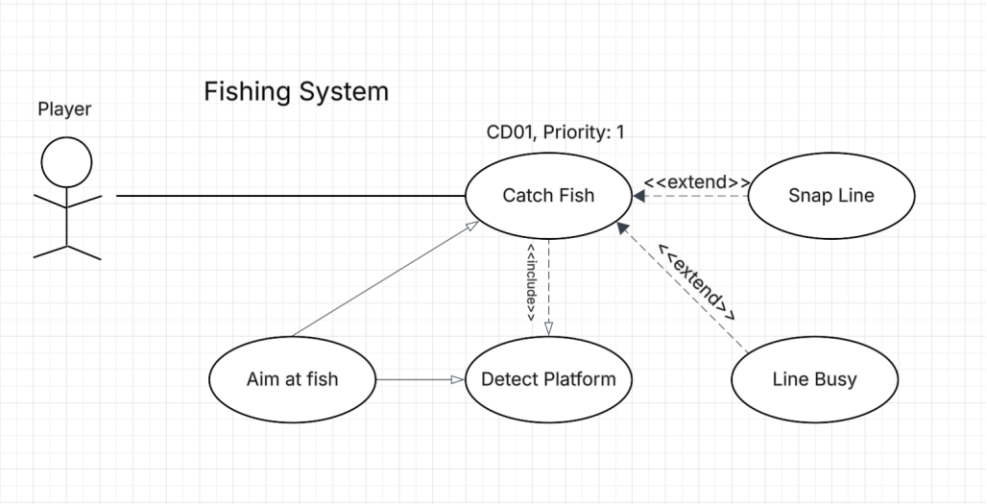
- **Purpose:** To provide the player a location from which they can fish, as well as handle difficulty elements using weather and terrain generation.
- **Priority:** High
  - A major component of the game
  - Contributes to the game's overall difficulty and action punishment, providing a more "realistic" feel
- **Complexity:** Medium
  - Will require a substantial amount of balancing
  - Basic implementation should be simpler, with a focus on basic random number generation and storage.

Johnny:
Boat and Ocean Terrain Cont.



Saif TL6: Fishing Mechanism

- **Purpose:** To let the player play the game by throwing the hook and moving it around to catch the fish.
- **Priority:** High
- **Complexity:** Hard, The main core of the game.



Gabe TL5: Fish

Purpose: To provide the fish for the player to catch, which they will use for everything else in the game.

Priority: High

Complexity: High, the fish are a main component for the game
